

Thank You To Our Clients!

We thank all clients for their loyalty over the years. We enjoy helping all your animals both big and small. In the recent years, our clinic has been through many changes including purchasing Monroe Veterinary Service, retiring veterinarians and adding new veterinarians. We are not growing to make our clinic bigger - we are growing to better serve our clients and the community. We placed a 30 mile radius from both clinics for our farm calls to better service our clients in a timely manner. However, we continue to accommodate outside farms by utilizing our haul in facility for service.

Look for to future newsletters from BVMC for upcoming news, services and updates!

Independently Owned

Celebrating 75 Years of Business

Brodhead Veterinary Medical Center is celebrating 75 years of service to the community in 2026. We are excited for this achievement and will be having open houses at both clinics in the upcoming year. Keep an eye on future newsletters and our website for more information regarding the celebrations.

Medication & Supply Backorders

We understand it can be frustrating to order medication & supplies as many items are on backorder with limited information on when they will return to the market. We are trying our best to keep medication & supply options available in clinic. You can also order online for direct shipment at Brodheadvets.com or scan this QR code to be taken directly to the website. If you are having difficulty ordering, please contact one of our vets for best options of replacements.
